Symposium Committee

KANSAS STATE
UNIVERSITY

ABOUT THE SYMPOSIUM

The K-State Agronomy, Genetics and Plant Pathology Symposium Committee brings together scientific leaders from around the world to discuss innovative research.

Organized by graduate students from **Kansas State University** in **partnership with Corteva Agriscience**.

EVENT FORMAT

LIVE

Live broadcast available: Students, researchers and enthusiasts from around the world are welcome to attend online.

WHO WE ARE

The organizing committee brings together students from three graduate programs: **Agronomy, Genetics, and Plant Pathology**, each contributing a distinct scientific perspective.

This interdisciplinary composition is central to the committee's approach: by bridging expertise across disciplines, the team is able to design an event that reflects the complexity and connectivity of modern crop science.

The committee is structured around five student chairs responsible for coordinating all aspects of the symposium, supported by a broader group of student volunteers committed to delivering a high-quality scientific experience for attendees worldwide.

ESSENTIAL OVERLAPS FOR CROP IMPROVEMENT

BUILDING BRIDGES TO CLOSE GAPS

OUR VISION

We are building an interdisciplinary symposium that advances crop improvement by bridging **agronomy, plant pathology, and plant breeding** through the shared framework of **genotype x environment x management**, inspiring innovative, practical, and scalable solutions for more resilient and sustainable agricultural systems.

OUR OBJECTIVES

Scientific Exchange

Invited presentations from leading researchers across universities.

Interdisciplinary Collaboration

Connecting genetics, pathology, and agronomy around shared research challenges.

Industry–Academia Bridge

Workshops designed to foster dialogue between researchers and industry partners.

Open Access & Broad Reach

Live broadcast enabling global participation beyond the KSU campus.

By highlighting how genetics, environmental variation, management practices, and disease pressures interact to shape crop performance, **we aim to strengthen cross-disciplinary collaboration and inspire innovative, practical, and scalable solutions for more resilient, productive, and sustainable agricultural systems.**

PARTNERING WITH US

WHY BECOME A SPONSOR?

The Symposium **connects your organization with the next generation of crop scientists** in a setting built for dialogue, discovery, and collaboration.

WHAT YOUR SPONSORSHIP DELIVERS

Direct access to emerging talent

Meet and engage with graduate students, your next generation of researchers, breeders, and scientists actively seeking opportunities.

Brand visibility across all channels

Your logo and name featured in event materials, signage, the symposium booklet, and our live broadcast.

Networking with academic leaders

Interact directly with faculty, invited speakers, and researchers from leading institutions .

Invest in science education

Supporting a free, student-led event demonstrates your company's commitment to open science, diversity, and the development of the next generation of agricultural professionals.

SPONSORSHIP OPTIONS

We offer several sponsorship options to support the symposium, each designed to provide broad visibility for your company.

PLATINUM

> US\$4,500

GOLD

US\$3,000-4,500

SILVER

US\$1,500-3,000

BRONZE

< US\$1,500

BRAND VISIBILITY

Your sponsorship ensures **your organization is seen before, during, and after the event** by students, researchers, faculty, and industry professionals attending in person and online.

Website

Platinum

Gold

Silver

Bronze

Your logo will be featured on a dedicated sponsor page, organized by tier, with size reflecting sponsorship level.

The website remains live before and after the event, extending your visibility beyond the two-day program.

Flyer

Platinum

Promotional flyers will be distributed to several universities and institutions, reaching students, professors, and researchers. Platinum sponsors will have their logo featured on all official flyers, including the call for abstracts and event announcements.

Remarks

Platinum

Gold

Silver

Bronze

All sponsors will be publicly acknowledged during the opening and closing ceremonies. Your company logo will be displayed on screen during the remarks reinforcing your organization's commitment to scientific education and collaboration.

Program

Platinum

Gold

Silver

Every in-person attendee will receive a printed program at registration. Your logo will be included in the program booklet, with size proportional to your tier.

BRAND VISIBILITY

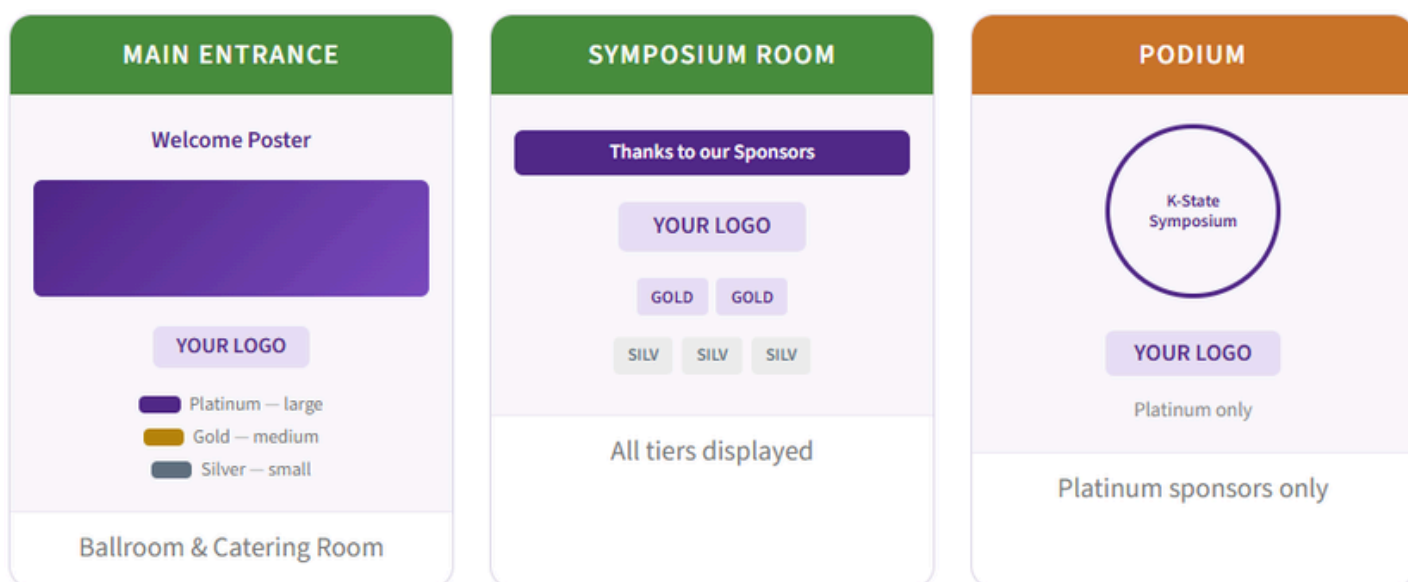

Posters & Banners

Platinum

Gold

Silver

On both days of the event, posters with sponsor logos will be displayed at several high-traffic locations throughout the K-State Student Union, maximizing in-person brand exposure. Logo size and placement location correspond to sponsorship tier.

Name Tag

Platinum

Name tags will be printed for all registered attendees.

Platinum sponsors will have their logo displayed prominently on every name tag.

Final designs for flyers, banners and name tag are currently in development and will be shared with sponsors upon completion.
